LEARNER HANDOUT · YOUR CASE · NO MARKS

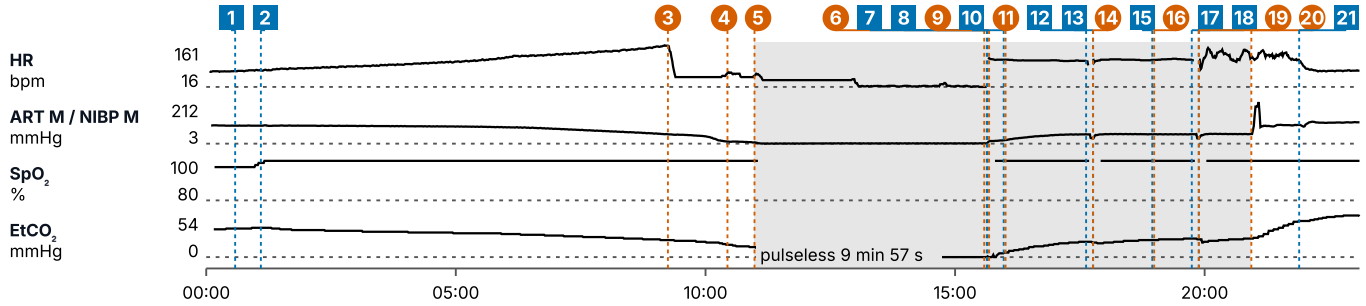

Class IV haemorrhage, PEA and resuscitation

M 35 y 75 kg · 23:06 simulated

This sheet is yours to keep. It shows what happened and when; it does not mark you. The conversation, not this page, is the debrief.

Your run at a glance

■ team action · ● patient event · □ scenario state

Key moments

n	Time	Who	What happened
1	00:34	■ Team	Bleeding, oxygen by face mask (FiO_2 1.0)
2	01:05	■ Team	Bleeding, intubated and ventilated (12 × 500, PEEP 5, FiO_2 1.0)
3	09:14	● Patient	Pre-arrest: junctional rhythm 50/min
4	10:26	● Patient	PEA: junctional rhythm, no pulse
5	10:59	● Patient	Pulse lost (the model)
6	15:35	● Patient	Asystole
7	15:38	■ Team	CPR: compressions 110/min, bag via the tube 10/min, FiO_2 1.0
8	15:38	■ Team	CPR: bleeding controlled; 1 L warmed crystalloid, then red cells and plasma by rapid infuser; TXA 1 g
9	15:41	● Patient	CPR continuing
10	15:58	■ Team	CPR: epinephrine 1 mg given
11	16:00	● Patient	CPR continuing
12	17:37	■ Team	Rhythm check: VF
13	17:45	■ Team	Shock delivered
14	17:45	● Patient	Shocked: CPR on for 2 min
15	18:56	■ Team	CPR after the first shock: epinephrine 1 mg given
16	18:59	● Patient	CPR continuing after the first shock
17	19:44	■ Team	Rhythm check: VF again
18	19:52	■ Team	Shock delivered
19	19:52	● Patient	Shocked again: CPR on for 2 min
20	20:56	● Patient	Circulation returned (the model)
21	21:53	■ Team	Return of circulation: CPR stopped, ventilator 12 × 500, PEEP 5, FiO_2 1.0

Questions to think about

1. What did you notice first on the monitor, and when?

2. Take one key moment: what were you thinking then, and what did you do?

3. One thing you will keep doing, and one thing you will do differently.

Take-home points

1. Positive pressure and induction can tip a compensated bleeding patient into arrest.
2. In haemorrhagic arrest, stopping the bleeding and giving blood come first; compressions cannot fill an empty heart.
3. $EtCO_2$ and the arterial diastolic pressure show how good the CPR is, and they show the return of circulation.

Next time, run the case again from its start and compare your key moments.
